WASHINGTON (P) Sen. Gore

debate on the bill, with major skirmishing continuing on the power plant issue. Eisenhower has lirected the Atomic Energy Comoission (AEC) to conclude a 25year contract with a private utiliy group for an ew steam power plant to service the Memphis. The President, who has described t he order a s one which will p rovide time f or a nother government look at TVA operations, met at the White House yesterday

with Sen. Anderson of New Mexico, s e nior Democratic senator on the Senate-House Atomic Energy Aderson later introduced mendment that would allow the AEC to contract only for power supplied directly to atomic installations. The amendment would also require p roposed contracts to be submitted for 30 days to the congressional atomic committee.

Anderson told the Senate the proposed contract would supply power for general consumer service. He and o thers d i spute an administra-

WASHINGTON (P) Sen. Gore
(D-Tenn) predicted today some Republican senators will join many Democrats in supporting a proposal to block President Eisenhowers's plan to place a new private power plant in the Tennessee Val

The President, who has described t he order a s one which will p rovide time f or a nother government look at TVA operations, met at the White House yesterday

with Sen. Anderson of New Mexico, s e nior Democratic senator on the Senate-House Atomic Energy Aderson later introduced mendment that would allow the AEC to contract only for power supplied directly to atomic installations. The amendment would also require p roposed contracts to be submitted for 30 days to the congressional atomic committee.

Anderson told the Senate the proposed contract would supply power for general consumer service. He and o thers d i spute an administra-
